

Sea Buckthorn100™

Sea Buckthorn100™ is the World's First 100% Pure, Wild Harvested, Unfiltered Sea Buckthorn Juice and contains 30,000 mg of Sea Buckthorn in every fluid ounce. It is a proprietary bitter, tart formula that combines the entire goodness of the legendary Sea Buckthorn Berry. This small, bright orange fruit has a history of use that spans more than 1,500 years in Asia, Russia and Europe, thriving amidst the harshest mountain conditions. **Sea Buckthorn100™** contains the whole Sea Buckthorn Berry, including the Fresh Pressed Sea Buckthorn Juice, Fresh Sea Buckthorn Berry Meat, and Sea Buckthorn Oils (from fruit and pit). This product contains no added fruit juices, sweeteners, preservatives, or anything!

Sea Buckthorn berries are extremely nutrient dense, containing more than 190 biologically active compounds including Vitamins A, B1, B2, C, D, K and P, Amino Acids, Folic Acid, Tocopherols, Flavonoids, Terpenes, Phenols, and more. They are also a fruit based source of Omega 3 - 6 - 7 - and 9, extremely rare in any plant.

Sea Buckthorn berries contain 3 times the Vitamin A of carrots and have 10 times the Vitamin C of oranges. They are second only to wheat germ as a source of Vitamin E and are a rich source of Beta Carotene.

Eating Right Isn't Enough Anymore

That's been the title of my book for many years. We know all of our foods are grown on soils that are devoid of most nutrients. When you take a head of lettuce into a lab, you find more chemical pollution than vitamins. Supplements have been the only way to get the extra nutrients we need. The trouble with supplements is "Which ones do you take; how much do you take; and how have they been processed"? My teachers all taught me to "live" we must eat whole, raw foods. It's my contention the only way to get the concentrated nutrients from live, whole foods is to "juice" them. I wish I had a nickel for every juicer that is not being used. We soon find out that juicing is a big job, especially trying to find organic vegetables and fruit.

This brings me to the point I want to make. **Why SUPERFRUIT Drinks?** I truly don't believe that man can make a supplement as good as God's Super Fruits. These **SUPERFRUITS** are all berries. When juiced they contain over 30,000 mg per 1 ounce serving, not 500 or 1,000 mg like most pills or capsules. Plus they are extremely high on the ORAC scale. **dcjsSUPERFRUIT JUICES contain 30,000 mg in each serving**- that is a therapeutic dosage. 1 or 2 ounces once or twice a day will accomplish most anything a person wants to accomplish concerning their health or weight-loss program.

Put these **SUPERFRUITS** in any juice you like. **Make a power drink** that you know is full of nutrients. Why take a handful of pills or capsules which is very hard for our bodies to digest? It's as simple as pouring a glass of juice. It tastes great and is very digestible. **You will feel the difference very quickly. I guarantee it!**
